Ins 50.08 Qualifications of independent certified public accountants. (1) The commissioner may rule that an accountant or accounting firm is not qualified for purposes of expressing an opinion on the financial statements in the annual audited financial report required under this subchapter and prohibit insurers from retaining the accountant or an accounting firm, and require insurers to replace the accountant or accounting firm, if the commissioner finds there is cause, including, but not limited to, a finding that the accountant or accounting firm:

The commissioner may grant relief from the rotation requirement on the basis of unusual circumstances. Ins 50.09 Consolidated or combined audits. An insurer may file audited consolidated or combined financial statements in lieu of separate annual audited financial statements required under this subchapter if the commissioner approves in writing and if the insurer is part of a group of insurers which utilizes a pooling or 100% reinsurance agreement that affects the solvency and integrity of the insurer's reserves and the insurer cedes all of its direct and assumed business to the pool. If the commissioner permits a consolidated report under this section the report

The independent certified public accountant may also give consideration to such other procedures illustrated in the financial condition examiner's handbook promulgated by the national association of insurance commissioners as the independent certified public accountant deems necessary. The commissioner may require that an independent certified public accountant conduct additional procedures or provide additional reports.

History: Cr. Register, July, 1993, No. 451, eff. 8-1-93.

Ins 50.11 Notification of adverse financial condition. (1) An insurer shall require the independent certified public accountant to report, in writing and within 5 business days, to the board of directors of the insurer or its audit committee any determination by the independent certified public accountant that the insurer has materially misstated its financial condition as reported to the commissioner as of the balance sheet date currently under examination or that the insurer does not meet the minimum capital and surplus or compulsory surplus requirements.

(2) An insurer who receives a report required under sub. (1) shall forward a copy of the report to the commissioner within 5 business days of receipt of the report and shall provide the independent certified public accountant making the report with evidence that the report has been furnished to the commissioner.

(3) An independent certified public accountant shall furnish to the commissioner a copy of its report required under sub. (1) within 10 business days after it is furnished to the insurer under sub. (4) An executive officer or director of an insurer which receives notice under sub. An insurer

An insurer shall promptly file with the commissioner a description of remedial actions taken or proposed to correct significant deficiencies, if the actions are not described in the independent certified public accountant's report.

(2) The background and experience in general, and the experience in audits of insurers of the staff assigned to the engagement and whether each is an independent certified public accountant. This subchapter does not prohibit the accountant or accounting firm from utilizing such staff as he or she deems appropriate where use is consistent with the standards prescribed by generally accepted auditing standards.

(3) That the accountant or accounting firm understands that the annual audited financial report and his or her opinion on the annual audited financial report will be filed in compliance with this chapter and that the commissioner will be relying on this information in the monitoring and regulation of the financial position of insurers.

(4) That the accountant or accounting firm consents to the requirements of s. Ins 50.15 and that the accountant or accounting firm consents and agrees to make available work papers for review by the commissioner.

(2) For Canadian and British insurers, the letter required in s. (3) The commissioner may determine the nature and scope of an examination. An examination may, but need not, cover all aspects of the insurer's assets, condition, affairs and operations, and may involve or be supplemented by review of audit procedures performed by accountants. I meet the Academy qualification standards for rendering the opinion and am familiar with the valuation requirements applicable to life and health insurance companies."

2. For a consulting actuary, the opening paragraph should contain a sentence such as: "I, [name], a member of the American Academy of Actuaries, am associated with the firm of [name of consulting firm]. (bg) The tabulation in the scope paragraph required under par. (b) shall conform to the following:

1. The additional actuarial reserves are the reserves established under s. Ins 50.75 (5) (b).

2. The appointed actuary should indicate the method of analysis, determined in accordance with the standards for asset adequacy analysis referred to in s. Ins 50.75 (4), by means of symbols which should be defined in footnotes to the table.

3. The AVR shall be the allocated amount of asset valuation reserve.

(c) If the appointed actuary has relied on other experts to develop certain portions of the analysis, the reliance paragraph should include a statement such as the following: “I have relied on

[name], [title] for [insert description of a portion relied upon such as anticipated cash flows from currently owned assets, including variations in cash flows according to economic scenarios] and, as certified in the attached statement. I have reviewed the information relied on for reasonableness.”

(cg) A statement of reliance on other experts shall be accompanied by a statement by each of such experts in the form prescribed by sub. (5).

(d) If the appointed actuary has examined the underlying asset and liability records, the reliance paragraph shall also include the following: “My examination included such review of the actuarial assumptions and actuarial methods and of the underlying basic asset and liability records and such tests of the actuarial calcula-

tions as I considered necessary. I also reconciled the underlying basic asset and liability records to [exhibits and schedules listed as applicable] of the company's current annual statement."

(e) If the appointed actuary has not examined the underlying records, but has relied upon data, such as listings and summaries of policies in force or asset records, prepared by the company, the reliance paragraph shall include a statement such as: "In forming my opinion on [specify types of reserves] I relied upon data prepared by [name and title of company officer certifying in force records or other data] as certified in the attached statements. I evaluated that data for reasonableness and consistency. I also reconciled that data to [exhibits and schedules to be listed as applicable] of the company's current annual statement. In other respects, my examination included review of the actuarial assumptions and actuarial methods used and tests of the calculations I considered necessary."

(eg) A section described in par. (e) shall be accompanied by a statement by each person relied upon in the form prescribed by sub. (5).

(f) The opinion paragraph should include all of the following:

1. "In my opinion the reserves and related actuarial values concerning the statement items identified above:

a. Are computed in accordance with presently accepted actuarial standards consistently applied and are fairly stated, in accordance with sound actuarial principles;

b. Are based on actuarial assumptions which produce reserves at least as great as those called for in any contract provision as to reserve basis and method, and are in accordance with all other contract provisions;

c. Meet the requirements of the insurance law and rules of the state of [state of domicile] and are at least as great as the minimum aggregate amounts required by the state in which this statement is filed, unless alternative language is approved under sub. (6).

d. Are computed on the basis of assumptions consistent with those used in computing the corresponding items in the annual statement of the preceding year-end (with any exceptions noted below);

e. Include provision for all actuarial reserves and related statement items which ought to be established.

f. The reserves and related items, when considered in light of the assets held by the company with respect to the reserves and related actuarial items including, but not limited to, the investment earnings on the assets, and the considerations anticipated to be received and retained under the policies and contracts, make adequate provision, according to presently accepted actuarial standards of practice, for the anticipated cash flows required by the contractual obligations and related expenses of the company.

g. The actuarial methods, considerations and analyses used in forming my opinion conform to the appropriate Standards of Practice as promulgated by the actuarial standards board, which standards form the basis of this statement of opinion."

1m. The commissioner may approve omission of the language in subd. 1. f. for an opinion filed on behalf of a company doing business only in this state and in no other state.

2. The appropriate one of the following 2 paragraphs:

a. This opinion is updated annually as required by statute. To the best of my knowledge, there have been no material changes from the applicable date of the annual statement to the date of the rendering of this opinion which should be considered in reviewing this opinion." or

b. "The following material change(s) which occurred between the date of the statement for which this opinion is applicable and the date of this opinion should be considered in reviewing this opinion: (Describe the change or changes.)"

3. "The impact of unanticipated events subsequent to the date of this opinion is beyond the scope of this opinion. The analysis

of asset adequacy portion of this opinion should be viewed recognizing that the company's future experience may not follow all the assumptions used in the analysis.

(3) ASSUMPTIONS FOR NEW ISSUES. The adoption for new issues or new claims or other new liabilities of an actuarial assumption which differs from a corresponding assumption used for prior new issues or new claims or other new liabilities is not a change in actuarial assumptions within the meaning of this section.

(4) ADVERSE OPINIONS. If the appointed actuary is unable to form an opinion, then he or she shall refuse to issue a statement of actuarial opinion. If the appointed actuary's opinion is adverse or qualified, then he or she shall issue an adverse or qualified actuarial opinion explicitly stating the reason for such opinion. This statement should follow the scope paragraph and precede the opinion paragraph.

(5) RELIANCE ON INFORMATION FURNISHED BY OTHER PERSONS. If the appointed actuary relies on the certification of others on matters concerning the accuracy or completeness of any data underlying the actuarial opinion, or the appropriateness of any other information used by the appointed actuary in forming the actuarial opinion, the actuarial opinion shall indicate the persons the actuary is relying upon and a precise identification of the items subject to reliance. In addition, the persons on whom the appointed actuary relies shall provide a certification that precisely identifies the items on which the person is providing information and a statement as to the accuracy, completeness or reasonableness, as applicable, of the items. This certification shall include the signature, title, company, address and telephone number of the person rendering the certification, as well as the date on which it is signed.

(6) ALTERNATE OPTION. (a) The commissioner has authority under ch. 623, Stats., to accept the valuation of a foreign insurer when that valuation meets the requirements applicable to a company domiciled in this state in the aggregate. As an alternative to the requirements sub. (2) (f) 1. c., the commissioner may, by written approval issued to a specific insurer, allow the opining actuary to use one or more of the following additional approaches:

1. A statement that the reserves "meet the requirements of the insurance laws and regulations of the State of [state of domicile] and the formal written standards and conditions of this state for filing an opinion based on the law of the state of domicile." If the commissioner chooses to allow this alternative, the commissioner's approval shall provide instructions with a list of standards and conditions. If a company chooses to use this alternative, the commissioner's approval, including standards and conditions for that approval in effect on July 1 of a calendar year, shall apply to statements for that calendar year, and they shall remain in effect until they are revised or revoked. The commissioner will not grant approval under this subdivision unless instructions are included with standards and conditions.

2. A statement that the reserves "meet the requirements of the insurance laws and regulations of the State of [state of domicile] and I have verified that the company's request to file an opinion based on the law of the state of domicile has been approved and that any conditions required by the commissioner for approval of that request have been met." This alternative may be used only if the commissioner issues a formal written statement of such allowance no later than March 31 of the year it is first effective. It shall remain valid until rescinded or modified by the commissioner. The rescission or modifications shall be issued no later than March 31 of the year they are first effective. Subsequent to that statement being issued, if a company chooses to use this alternative, the company shall file a request to do so, along with justifica-

tion for its use, no later than April 30 of the year of the opinion to be filed. The request is deemed approved on October 1 of that year if the commissioner has not denied the request by that date.

3. A statement that the reserves "meet the requirements of the insurance laws and regulations of the State of [state of domicile] and I have submitted the required comparison as specified by this state." This alternative statement may be used only if the commissioner gives written approval to the specific insurer, with instructions for a written list of products, to be added to the table in subd. 3. a., for which the required comparison shall be provided. If a company chooses to use this alternative, the approved instructions in effect on July 1 of a calendar year shall apply to statements for that calendar year, and the approval and instructions shall remain in effect until they are revised or revoked. This alternative is not

available unless the commissioner approves and includes instructions. If a company uses this alternative, the appointed actuary shall provide a comparison of the gross nationwide reserves held to the gross nationwide reserves that would be held under NAIC codification standards. The comparison provided by the company is to be kept confidential to the same extent and under the same conditions as the actuarial memorandum. Gross nationwide reserves are the total reserves calculated for the total company in force business directly sold and assumed, indifferent to the state in which the risk resides, without reduction for reinsurance ceded. The information provided shall comply with the commissioner's instructions and shall include at least all the following:

a. A table as follows:

(1) Product Type	(2) Death Benefit or Account Value	(3) Reserves Held	(4) Codification Reserves	(5) Codification Standard

b. The information listed shall include all products identified by either the state of filing or any other states subscribing to this alternative.

c. If there is no codification standard for the type of product or risk in force or if the codification standard does not directly address the type of product or risk in force, the appointed actuary shall provide detailed disclosure of the specific method and assumptions used in determining the reserves held.

(b) The comparison provided by the company under par. (a) shall be kept confidential to the same extent and under the same conditions as the actuarial memorandum.

(c) Notwithstanding par. (a), the commissioner may reject an opinion based on the laws and regulations of the state of domicile and require an opinion based on the laws of this state. The commissioner may contract an independent actuary at the company's expense to prepare and file the opinion unless a company provides the required opinion within sixty days of the date the commissioner demands that the company provide such an opinion or such other period of time determined by the commissioner after consultation with the company. The paragraph does not limit or restrict the penalties or other consequence that otherwise apply for failure to timely file the required opinion.

Ins 50.79 Description of the actuarial memorandum including an asset adequacy analysis and regulatory asset adequacy issues summary. (1) GENERAL.

(a) In accordance with subch. IV and ch. 623, Stats., the appointed actuary shall prepare a memorandum to the company describing the analysis done in support of his or her opinion regarding the reserves under a s. Ins 50.78 opinion. The memorandum shall be made available for examination by the commissioner upon his or her request but shall be returned to the company after such examination and shall not be subject to automatic filing with the commissioner.

(b) In preparing the memorandum, the appointed actuary may rely on, and include as a part of his or her own memorandum, memoranda prepared and signed by other actuaries who are qualified within the meaning of s. Ins 50.75 (2), with respect to the areas covered in such memoranda, and so state in their memoranda.

(c) If the commissioner requests a memorandum and no such memorandum exists or if the commissioner finds that the analysis described in the memorandum fails to meet the standards of the actuarial standards board or the standards and requirements of this subchapter, the commissioner may designate a qualified actuary

to review the opinion and prepare such supporting memorandum as is required for review. The reasonable and necessary expense of the independent review shall be paid by the company but shall be directed and controlled by the commissioner.

(d) The reviewing actuary shall have the same status as an examiner for purposes of obtaining data from the company and the work papers and documentation of the reviewing actuary shall be retained by the commissioner; provided, however, that any information provided by the company to the reviewing actuary and included in the work papers shall be considered as material provided by the company to the commissioner and shall be kept confidential to the same extent as is prescribed by law with respect to other material provided by the company to the commissioner pursuant to the statute governing this subchapter and as permitted by s. 601.465, Stats. The reviewing actuary shall not be an employee of a consulting firm involved with the preparation of any prior memorandum or opinion for the insurer pursuant to this subchapter for any one of the current year or the preceding three years.

(e) In accordance with subch. IV and ch. 623, Stats., the appointed actuary shall prepare a regulatory asset adequacy issues summary, the contents of which are specified in sub. (3). The regulatory asset adequacy issues summary shall be submitted no later than March 15 of the year following the year for which a statement of actuarial opinion based on asset adequacy is required. The regulatory asset adequacy issues summary is to be kept confidential to the same extent and under the same conditions as the actuarial memorandum.

(2) DETAILS OF THE MEMORANDUM SECTION DOCUMENTING ASSET ADEQUACY ANALYSIS. When an actuarial opinion under s. Ins 50.78 is provided, the memorandum shall demonstrate that the analysis has been done in accordance with the standards for asset adequacy referred to in s. Ins 50.75 (4) and any additional standards under this subchapter. The documentation of the assumptions shall be such that an actuary reviewing the actuarial memorandum could form a conclusion as to the reasonableness of the assumptions. It shall specify all of the following:

(a) For reserves:

1. Product descriptions including market description, underwriting and other aspects of a risk profile and the specific risks the appointed actuary deems significant;
2. Source of liability in force;
3. Reserve method and basis;
4. Investment reserves;
5. Reinsurance arrangements;
6. Identification of any explicit or implied guarantees made by the general account in support of benefits provided through a

separate account or under a separate account policy or contract and the methods used by the appointed actuary to provide for the guarantees in the asset adequacy analysis; and

7. Documentation of assumptions to test reserves for the following:

- a. Lapse rates, both base and excess;
- b. Interest crediting rate strategy;
- c. Mortality;
- d. Policyholder dividend strategy;
- e. Competitor or market interest rate;
- f. Annuitization rates;
- g. Commissions and expenses; and
- h. Morbidity.

(b) For assets:

1. Portfolio descriptions, including a risk profile disclosing the quality, distribution and types of assets;

2. Investment and disinvestment assumptions;
3. Source of asset data;
4. Asset valuation bases; and

5. Documentation of assumptions made for:

- a. Default costs;
- b. Bond call function;
- c. Mortgage prepayment function;
- d. Determining market value for assets sold due to disinvestment strategy; and

e. Determining yield on assets acquired through the investment strategy.

(c) Analysis basis:

1. Methodology;

2. Rationale for inclusion/exclusion of different blocks of business and how pertinent risks were analyzed;

3. Rationale for degree of rigor in analyzing different blocks of business, including the rationale for the level of materiality that was used in determining how rigorously to analyze different blocks of business;

4. Criteria for determining asset adequacy, including the precise basis for determining if assets are adequate to cover reserves under moderately adverse conditions or other conditions as specified in relevant actuarial standards of practice; and

5. Whether the effect of federal income taxes was considered and the method of treating reinsurance in the asset adequacy analysis.

(d) Summary of material changes in methods, procedures, or assumptions from prior year's asset adequacy analysis.

(e) Summary of results.

(f) Conclusions.

(3) DETAILS OF THE REGULATORY ASSET ADEQUACY ISSUES SUMMARY. (a) The regulatory asset adequacy issues summary shall include all of the following:

1. Descriptions of the scenarios tested, including whether those scenarios are stochastic or deterministic, and the sensitivity testing done relative to those scenarios. If negative ending surplus results under certain tests in the aggregate, the actuary shall describe those tests and the amount of additional reserve as of the valuation date which, if held, would eliminate the negative aggregate surplus values. Ending surplus values shall be determined by either extending the projection period until the in force and associated assets and liabilities at the end of the projection period are immaterial or by adjusting the surplus amount at the end of the projection period by an amount that appropriately estimates the value that can reasonably be expected to arise from the assets and liabilities remaining in force.

2. The extent to which the appointed actuary uses assumptions in the asset adequacy analysis that are materially different than the assumptions used in the previous asset adequacy analysis.

3. The amount of reserves and the identity of the product lines that had been subjected to asset adequacy analysis in the prior opinion but were not subject to analysis for the current opinion.

4. Comments on any interim results that may be of significant concern to the appointed actuary.

5. The methods used by the actuary to recognize the impact of reinsurance on the company's cash flows, including both assets and liabilities, under each of the scenarios tested.

6. Whether the actuary has been satisfied that all options whether explicit or embedded in any asset or liability, including, but not limited to, those affecting cash flows embedded in fixed income securities and equity-like features in any investments, have been appropriately considered in the asset adequacy analysis.

(b) The regulatory asset adequacy issues summary shall contain the name of the company for which the regulatory asset adequacy issues summary is being supplied and shall be signed and dated by the appointed actuary rendering the actuarial opinion.

(4) CONFORMITY TO STANDARDS OF PRACTICE. The memorandum shall include the following statement: "Actuarial methods, considerations and analyses used in the preparation of this memorandum conform to the appropriate standards of practice as promulgated by the actuarial standards board, which standards form the basis for this memorandum."

(5) USE OF ASSETS SUPPORTING THE INTEREST MAINTENANCE RESERVE AND THE ASSET VALUATION RESERVE. An appropriate allocation of assets in the amount of the interest maintenance reserve, whether positive or negative, shall be used in any asset adequacy analysis. Analysis of risks regarding asset default may include an appropriate allocation of assets supporting the AVR; these AVR assets may not be applied for any other risks with respect to reserve adequacy. Analysis of these and other risks may include assets supporting other mandatory or voluntary reserves available to the extent not used for risk analysis and reserve support. The amount of the assets used for the AVR shall be disclosed in the table of reserves and liabilities of the opinion and in the memorandum. The method used for selecting particular assets or allocated portions of assets shall be disclosed in the memorandum.

(6) DOCUMENTATION. The appointed actuary shall retain on file, for at least 7 years, sufficient documentation so that it will be possible to determine the procedures followed, the analyses performed, the bases for assumptions and the results obtained.

Note: Prior to 12-31-05 section Ins 50.80 reads:

Ins 50.80 Additional considerations for analysis. (1) **AGGREGATION.** For the asset adequacy analysis for the statement of actuarial opinion provided in accordance with s. Ins 50.78, reserves and assets may be aggregated by either of the following methods:

(a) Aggregate the reserves and related actuarial items, and the supporting assets, for different products or lines of business, before analyzing the adequacy of the combined assets to mature the combined liabilities. The appointed actuary must be satisfied that the assets held in support of the reserves and related actuarial items so aggregated are managed in such a manner that the cash flows from the aggregated assets are available to help mature the liabilities from the blocks of business that have been aggregated.

(b) Aggregate the results of asset adequacy analysis of one or more products or lines of business, the reserves for which prove through analysis to be redundant, with the results of one or more products or lines of business, the reserves for which prove through analysis to be deficient. The appointed actuary must be satisfied that the asset adequacy results for the various products or lines of business for which the results are so aggregated:

1. Are developed using consistent economic scenarios; or

2. Are subject to mutually independent risks, that is the likelihood of events impacting the adequacy of the assets supporting the redundant reserves is completely unrelated to the likelihood of events impacting the adequacy of the assets supporting the deficient reserves.

(c) In the event of any aggregation, the actuary shall disclose in his or her opinion that such reserves were aggregated on the basis of method par. (a) or (b) 1. or 2., whichever is applicable, and describe the aggregation in the supporting memorandum.

(2) **SELECTION OF ASSETS FOR ANALYSIS.** The appointed actuary shall analyze only those assets held in support of the reserves which are the subject for specific analysis, referred to in this subchapter as “specified reserves.” A particular asset or portion of an asset supporting a group of specified reserves cannot support any other group of specified reserves. An asset may be allocated over several groups of specified reserves. The annual statement value of the assets held in support of the reserves shall not exceed the annual statement value of the specified reserves, except as provided in sub. (3). If the method of asset allocation is not consistent from year to year, the extent of its inconsistency should be described in the supporting memorandum.

(3) **USE OF ASSETS SUPPORTING THE INTEREST MAINTENANCE RESERVE AND THE ASSET VALUATION RESERVE.** (a) An appropriate allocation of assets in the amount of the interest maintenance reserve (IMR), whether positive or negative, shall be used in any asset adequacy analysis. Analysis of risks regarding asset default may include appropriate allocation of assets supporting the asset valuation reserve (AVR). These AVR assets may not be applied for any other risks with respect to reserve adequacy. Analysis of these and other risks may include assets supporting other mandatory or voluntary reserves available to the extent not used for risk analysis and reserve support.

(b) The amount of the assets used for the AVR shall be disclosed in the table of reserves and liabilities of the opinion and in the memorandum. The method used for selecting particular assets or allocated portions of assets shall be disclosed in the memorandum.

(4) **REQUIRED INTEREST SCENARIOS.** For the purpose of performing the asset adequacy analysis required by this subchapter, the qualified actuary is expected to follow standards adopted by the actuarial standards board; nevertheless, the appointed actuary must consider in the analysis the effect of at least the following interest rate scenarios:

- (a) Level with no deviation;
- (b) Uniformly increasing over 10 years at a half percent per year and then level;
- (c) Uniformly increasing at one percent per year over 5 years and then uniformly decreasing at one percent per year to the original level at the end of 10 years and then level;
- (d) An immediate increase of 3% and then level;
- (e) Uniformly decreasing over 10 years at a half percent per year and then level;

(f) Uniformly decreasing at one percent per year over 5 years and then uniformly increasing at one percent per year to the original level at the end of 10 years and then level; and

(g) An immediate decrease of 3% and then level.

(4g) For scenarios described under sub. (4) and other scenarios which may be used, projected interest rates for a 5 year Treasury Note need not be reduced beyond the point where the 5 year Treasury note yield would be at 50% of its initial level. The beginning interest rates may be based on interest rates for new investments as of the valuation date similar to recent investments allocated to support the product being tested or be based on an outside index, such as Treasury yields, of assets of the appropriate length on a date close to the valuation date. Whatever method is used to determine the beginning yield curve and associated interest rates should be specifically defined. The beginning yield curve and associated interest rates should be consistent for all interest rate scenarios.

(5) **DOCUMENTATION.** The appointed actuary shall retain on file, for at least 7 years, sufficient documentation so that it will be possible to determine the procedures followed, the analyses performed, the bases for assumptions and the results obtained.

Subchapter VI — Risk Retention and Purchasing Groups

Ins 50.85 Risk retention groups and risk purchasing groups. (1) The commissioner is constituted attorney to receive

service of summons, notices, orders, pleadings and all other legal process relating to any court or administrative agency in this state for all risk retention groups and risk purchasing groups as to any proceeding arising out of the business of insurance in this state, insurance activities in this state, or out-of-state activities related to policies on risks within this state.

(2) A risk retention group or risk purchasing group may not conduct an insurance business or engage in any insurance activity in this state until it registers with the commissioner and designates the commissioner as its agent for the purposes described under sub. (1). If a risk retention group or risk purchasing group fails to designate the commissioner as required by this section, the commissioner is deemed appointed as provided by sub. (1).
